

Invitation to the SanWat Sectoral Survey

Dear NGO,

We would very much like to invite you to the first survey of the German non-governmental organisations operating in the field of international development with regard to their activities in the water and sanitation sectors.

This survey forms one part of a collaborative initiative of the German Toilet Organisation, BORDA, and WECF, which aims to strengthen inter-sectoral cooperation and knowledge management. The survey represents the start of this process and should serve to identify the organisations active in the field and provide a basis for subsequent network activities. The idea for this project was developed through the work of AG Wasser's Environment and Development forums and is supported by End Water Poverty.

The results of the survey will be made available to all participants, and will be followed up with a discussion workshop in Berlin or Bonn, planned for the February/March of 2010. This will allow suggestions and ideas for future network activities to be presented and discussed. We will get in touch again in good time to provide you with details of the programme and location.

Should you not be responsible for these sectors, we would be extremely grateful if you could pass this invitation on to the relevant person.

The survey can be accessed until 31 January 2010 at the following link:

<http://sanwat-network.limequery.org/index.php?sid=99747&lang=en>

Yours faithfully,

SanWat Initiative
